PEYTO ENERGY TRUST

Information Circular-Proxy Statement
for the Annual and Special Meeting to be held on May 19, 2010

PROXIES

Solicitation of Proxies

This information circular proxy statement is furnished in connection with the solicitation of proxies for use at the annual and special meeting of the unitholders of Peyto Energy Trust to be held on Wednesday, May 19, 2010 in the Livingston Place Conference Centre located at +15 Level, 222 – 3rd Avenue S.W., Calgary, Alberta, T2P 0B4, and at any adjournment thereof. Forms of proxy must be addressed to and reach Valiant Trust Company, Suite 310, 606 - 4th Street S.W., Calgary, Alberta, T2P 1T1 or by fax at (403) 233-2857, not less than 24 hours before the time for holding the meeting or any adjournment thereof. Only unitholders of record at the close of business on April 16, 2010 will be entitled to vote at the meeting, unless that unitholder has transferred any trust units subsequent to that date and the transferee unitholder, not later than 10 days before the meeting, establishes ownership of the trust units and demands that the transferee's name be included on the list of unitholders.

The instrument appointing a proxy must be in writing and must be executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation.

The persons named in the enclosed form of proxy are officers of Peyto Energy Administration Corp. **As a unitholder you have the right to appoint a person, who need not be a unitholder, to represent you at the meeting. To exercise this right you should insert the name of the desired representative in the blank space provided on the form of proxy and strike out the other names or submit another appropriate proxy.**

Advice to Beneficial Holders of Trust Units

The information set forth in this section is of significant importance to you if you do not hold your trust units in your own name. Only proxies deposited by unitholders whose names appear on our records as the registered holders of trust units can be recognized and acted upon at the meeting. If trust units are listed in your account statement provided by your broker, then in almost all cases those trust units will not be registered in your name on our records. Such trust units will likely be registered under the name of your broker or an agent of that broker. In Canada, the vast majority of such trust units are registered under the name of CDS & Co., the registration name for The Canadian Depository for Securities Limited, which acts as nominees for many Canadian brokerage firms. Trust units held by your broker or their nominee can only be voted upon your instructions. Without specific instructions, your broker or their nominee is prohibited from voting your trust units.

Applicable regulatory policy requires your broker to seek voting instructions from you in advance of the meeting. Every broker has its own mailing procedures and provides its own return instructions, which you should carefully follow in order to ensure that your trust units are voted at the meeting. Often, the form of proxy supplied by your broker is identical to the form of proxy provided to registered unitholders. However, its purpose is limited to instructing the registered unitholder how to vote on your behalf. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("**Broadridge**"). Broadridge mails a scannable voting instruction form in lieu of the form of proxy. You are asked to complete and return the voting instruction form to them by mail or facsimile. Alternately, you can call their toll-free telephone number or visit their internet site to vote your trust units. They then tabulate the results of all instructions received and provide appropriate instructions respecting the voting of trust units to be represented at the meeting. **If you receive a voting instruction form from Broadridge it cannot be used as a proxy to vote trust units directly at the meeting as the proxy must be returned to Broadridge well in advance of the meeting in order to have the trust units voted.**

Revocability of Proxy

You may revoke your proxy at any time prior to a vote. If you or the person you give your proxy attends personally at the meeting you or such person may revoke the proxy and vote in person. In addition to revocation in any other manner permitted by law, a proxy may be revoked by an instrument in writing executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation. To be effective the instrument in writing must be deposited either at our head office at any time up to and including the last business day before the day of the meeting, or any adjournment thereof, at which the proxy is to be used, or with the chairman of the meeting on the day of the meeting, or any adjournment thereof.

Persons Making the Solicitation

This solicitation is made on behalf of our management. We will bear the costs incurred in the preparation and mailing of the form of proxy, notice of annual meeting and this information circular-proxy statement. In addition to mailing forms of proxy, proxies may be solicited by personal interviews, or by other means of communication, by our directors, officers and employees who will not be remunerated therefore.

Exercise of Discretion by Proxy

The trust units represented by proxy in favour of management nominees will be voted on any poll at the meeting. Where you specify a choice with respect to any matter to be acted upon the trust units will be voted on any poll in accordance with the specification so made. If you do not provide instructions your trust units will be voted in favour of the matters to be acted upon as set out herein. The persons appointed under the form of proxy which we have furnished are conferred with discretionary authority with respect to amendments or variations of those matters specified in the form of proxy and notice of annual meeting and with respect to any other matters which may properly be brought before the meeting or any adjournment thereof. At the time of printing this information circular proxy statement, we know of no such amendment, variation or other matter.

STATEMENT OF EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Role of Compensation and Nominating Committee

The Compensation and Nominating Committee is comprised of Messrs. Fletcher, Braund, MacBean and Davis. These directors are considered independent from Peyto Energy Trust and its subsidiaries. The Compensation and Nominating Committee meets from time to time each year for the purpose of, among other things, reviewing the overall compensation policy of Peyto Energy Administration Corp. The Compensation and Nominating Committee makes recommendations to the Board of Directors on salaries of executive officers, bonus allocations and directors' compensation. The Board of Directors reviews all recommendations of the Compensation and Nominating Committee relating to compensation matters before final approval.

Executive and Employee Compensation Principals and Strategy

Our compensation policies are founded on the principal that executive and employee compensation should be consistent with unitholders' interests and, therefore, the compensation strategy employed is weighted towards variable or performance based compensation. The objectives of the policies are to attract and retain a high quality management and employee team and to motivate performance by tying a significant portion of the compensation to performance measures. The current elements of our executive and employee compensation are consistent with our business strategy of building value by drilling for oil and natural gas reserves, while distributing a portion of our cash to unitholders. The Compensation and Nominating Committee evaluates these objectives on an ongoing basis. Our compensation plan consists of the following items:

- base salary
- market based bonus
- reserves/value based bonus

In keeping with the objectives stated above, we pay base salaries at or slightly below the median of entities our size. The variable or performance based compensation consists of the market based bonus and reserves/value based bonus which are described in detail below. The market based bonus rewards participants for the performance of the trust units and the amount of distributions paid to unitholders, while the reserves/value based bonus rewards participants for accretive oil and natural gas reserve growth. The Compensation and Nominating Committee reviews all three components in assessing the compensation of individual executive officers and Peyto Energy Administration Corp. as a whole. We do not have a pension plan or other form of formal retirement compensation.

The compensation of all our employees, including executive officers, is consistent with the above policies. The Chief Executive Officer of Peyto Energy Administration Corp. is responsible for making recommendations to the Compensation and Nominating Committee with respect to compensation levels for all executive officers. In making such recommendations, the Chief Executive Officer analyzes a number of factors including the performance of the individual executive officer, level of responsibility, experience, expertise and the leadership role undertaken. The President and Chief Executive Officer's compensation is determined by the Board of Directors upon recommendation by the Compensation and Nominating Committee. A description of each element of our compensation is set forth below.

Base Salaries

The base salary component is intended to provide a fixed level of competitive pay that reflects each executive officer's or employee's primary duties and responsibilities. Our policy is that salaries for our executive officers and other employees are competitive within our industry and generally set at or slightly below the median salary level among entities our size. The rationale, as set forth above, is to focus compensation on variable or performance based compensation. We subscribe to available summaries for data on industry compensation amounts which assist us in determining salary amounts.

Market Based Bonus

The purpose of the market based bonus (the "**Market Component**") is to provide officers, consultants, employees and other service providers, as applicable (all of which are hereinafter called "**Service Providers**"), of Peyto Energy Trust and any of its subsidiaries with an opportunity to be issued allocations of the Market Component (referred to herein as "**Rights**"), as designated from time to time by the Board of Directors of Peyto Energy Administration Corp., the future value of which is based primarily on the market value of the trust units and the distributions paid to unitholders. The Market Component provides an increased incentive for these Service Providers to contribute to the future success of Peyto Energy Trust, thus enhancing the value of the trust units for the benefit of all the unitholders.

Rights are granted by the Board of Directors from time to time, at its sole discretion, to Service Providers. No Service Provider shall have any right to be granted Rights, except as may be specifically granted by the Board of Directors. The allocation of Rights are granted by the Board of Directors based on the recommendations of the Compensation and Nominating Committee after consultation with the Chief Executive Officer. The amount of Rights allocated to each executive officer and employee is not set in relation to any formula or specific criteria but is

primarily the result of a subjective determination by the Chief Executive Officer based on the assessment of individuals roles and responsibilities with Peyto Energy Trust. Allocations made to the Chief Executive Officer are determined by the Board of Directors on advice of the Compensation and Nominating Committee. Given the small number of employees at Peyto Energy Trust, this manner of allocation remains optimal.

The grant price ("**Grant Price**") per Right in respect of Rights granted is generally equal to the weighted average of the per trust unit closing price of trust units traded through the facilities of the Toronto Stock Exchange on the five (5) consecutive trading days immediately preceding the date of grant. The Rights have vesting schedules as determined by the Board of Directors, in its sole discretion. The Rights granted in 2008 vest in three years and the Rights granted in 2009 vest over three years. At the end of each year, the vested Rights are paid-out based on the formula set forth in the following paragraph. At the beginning of each calendar year, the Board of Directors of Peyto Energy Administration Corp. uses its discretion to determine whether to award new Rights, the number of Rights awarded, if any, the vesting schedule of such Rights and the allocations. Such new Rights are granted effective January 1 and are issued at a Grant Price equal to the Year End Market Price (as defined below). In certain circumstances, a new Service Provider may be granted Rights at the time they commence providing services, the Grant Price of such Rights to be the market price of the trust units at such time. All Rights that have vested expire at the end of the year regardless of whether they are in the money or not.

Upon the vesting of each Right, Peyto Energy Trust shall pay to the holder of such Right an amount equal to the sum of (i) the weighted average of the per trust unit closing price of trust units traded through the facilities of the Toronto Stock Exchange on the five (5) consecutive trading days immediately preceding the end of the calendar year ("**Year End Market Price**") less the Grant Price for such Right and (ii) the amount of the cash distributed by Peyto Energy Trust per trust unit from the Grant Date to the date of vesting. For greater certainty, the sum calculated in (i) above may be negative if the weighted average trading price is less than the Grant Price.

To date, 19.8 million Rights (inclusive of 1.9 million Rights granted in 2010) have been issued of which, 11.7 million have vested (inclusive of 1.9 million vested on December 31, 2009) and were paid out shortly thereafter. To date, 3.6 million unvested Rights have been cancelled. Compensation expense with respect to Rights vested, for December 31, 2008 totalled \$Nil and for December 31, 2009 totalled \$4.5 million. Effective January 1, 2010, 1.9 million Rights were issued, with such Rights vesting one third on December 31, 2010, one third on December 31, 2011 and one third on December 31, 2012. It is the current intention of Peyto Energy Trust to keep the number of Rights outstanding at a number, which is no greater than 6% of the issued and outstanding trust units. There are currently 4.5 million Rights outstanding, notionally representing 4% of the issued and outstanding trust units.

Reserves/Value Based Bonus

The principal purpose of the Reserves/Value Based Component ("**Value Component**") is to advance the interests of Peyto Energy Trust and its subsidiaries by providing for bonuses for key employees and directors of Peyto Energy Administration Corp. and its subsidiaries who are designated as participants thereunder. The goal in implementing the Value Component is to attract and retain such key employees and directors, make their compensation competitive with other opportunities, and provide them with an incentive to strive to achieve the financial and business objectives of Peyto Energy Trust and its subsidiaries. The overriding philosophy of the Value Component is to reward the designated executives and employees for accretive oil and natural gas reserve growth, which is a result of Peyto Energy Trust's exploration and development program. The Value Component is designed to recognize individual performance that has played a role in creating incremental value per trust unit but not to reward for increases in commodity prices.

The Value Component is administered by the Chief Executive Officer of Peyto Energy Administration Corp., who selects the participants in the Value Component from among key employees of Peyto Energy Administration Corp. and its subsidiaries and allocates participation points to each such participant. The amount of participation in such bonus is not set in relation to any formula or specific criteria but is the result of a subjective determination by the Chief Executive Officer based on an assessment of individual performance and is approved by the Compensation and Nominating Committee and the Board. Recommendations regarding the allocations made by the Chief Executive Officer are reviewed by the Compensation and Nominating Committee. Allocations and payments made to the Chief Executive Officer are determined by the Board of Directors on the advice of the Compensation and

Nominating Committee. Given the small number of employees at Peyto Energy Administration Corp. this manner of allocation remains optimal.

Under the Value Component, the bonus pool is comprised of 4% of the annual incremental increase in value, if any, as adjusted to reflect changes in debt, equity and distributions, of Proven Producing Reserves calculated using a discount rate of 8%. The change in Proven Producing Reserves is calculated on a calendar year basis. The Proven Producing Reserves are calculated by an independent oil and gas reservoir engineer, at the end of a fiscal year, using the following year's constant price forecast for all calculations. The bonuses, if any, under the Value Component are paid in cash. Compensation expense with respect to the Value Component totalled \$540,000 in 2009 (2008 - \$Nil).

Summary

The Board of Directors believes that long-term unitholder value is enhanced by compensation based upon corporate performance achievements. Through the plans described above, a significant portion of the compensation for all employees, including executive officers, is based on corporate performance, as well as industry-competitive pay practices.

CORPORATE GOVERNANCE PRACTICES

National Instrument 58-101, entitled "Disclosure of Corporate Governance Practices" ("**NI 58-101**") requires that if management of an issuer solicits proxies from its securityholders for the purpose of electing directors that certain prescribed disclosure respecting corporate governance matters be included in its management information circular. The Toronto Stock Exchange also requires listed companies to provide, on an annual basis, the corporate governance disclosure which is prescribed by NI 58-101.

The prescribed corporate governance disclosure for Peyto Energy Administration Corp. (the "**Corporation**"), the administrator of Peyto Energy Trust, is that contained in Form 58-101F1 which is attached to NI 58-101 ("**Form 58-101F1 Disclosure**").

Set out below is a description of the Corporation's current corporate governance practices, relative to the Form 58-101F1 Disclosure.

1. Board of Directors

(a) Disclose the identity of directors who are independent.

The following five directors of the Corporation are independent (for purposes of NI 58-101):

Donald Gray (Chairman)
 Michael MacBean (Lead Director)
 Brian Davis
 Gregory Fletcher
 Rick Braund

(b) Disclose the identity of directors who are not independent, and describe the basis for that determination.

Darren Gee is not independent as he occupies the position of President and Chief Executive Officer of the Corporation.

Stephen Chetner is not independent as he occupies the position of Corporate Secretary of the Corporation.

(c) Disclose whether or not a majority of directors are independent. If a majority of directors are not independent, describe what the board of directors (the Board) does to facilitate its exercise of independent judgement in carrying out its responsibilities.

A majority of the directors of the Corporation (currently five of the seven) are independent.

- (d) **If a director is presently a director of any other issuer that is a reporting issuer (or the equivalent) in a jurisdiction or a foreign jurisdiction, identify both the director and the other issuer.**

The following directors are presently directors of other issuers that are reporting issuers (or the equivalent):

<u>Name of Director</u>	<u>Name of Other Reporting Issuers</u>
Gregory Fletcher	Total Energy Services Inc. Calfrac Well Services Ltd.

- (e) **Disclose whether or not the independent directors hold regularly scheduled meetings at which non-independent directors and members of management are not in attendance. If the independent directors hold such meetings, disclose the number of meetings held since the beginning of the issuer's most recently completed financial year. If the independent directors do not hold such meetings, describe what the Board does to facilitate open and candid discussion among its independent directors.**

At the end of or during each meeting of the Board, the members of management of the Corporation and the non-independent directors of the Corporation who are present at such meeting leave the meeting in order for the independent directors to meet. In addition, as the Compensation and Nominating Committee is comprised of all the independent directors, it also serves as a forum for discussion amongst independent members of the Board. In addition, other meetings of the independent directors may be held from time to time if required. The Chairman of the Board also communicates informally, from time to time, with the independent members. Four (4) meetings of the independent directors have been held since the beginning of the Corporation's most recently completed financial year.

The Chairman of the Board is Donald Gray, who is an independent member of the Board. The Chairman presides at all meetings of the Board and, unless otherwise determined, at all meetings of shareholders and to enforce the rules of order in connection with such meetings. The Chairman is to provide overall leadership to the Board without limiting the principle of collective responsibility and the ability of the Board to function as a unit. The Chairman is to endeavour to fulfill his Board responsibilities in a manner that will ensure that the Board is able to function independently of management and is to consider, and allow for, when appropriate, a meeting of independent directors, so that Board meetings can take place without management being present. The Chairman is also to endeavour to ensure that reasonable procedures are in place to allow directors to engage outside advisors at the expense of the Corporation in appropriate circumstances.

- (g) **Disclose the attendance record of each director for all Board meetings held since the beginning of the issuer's most recently completed financial year.**

As new directors have joined the Board, management has provided these individuals with corporate policies, historical information about the Corporation, as well as information on the Corporation's performance and its strategic plan with an outline of the general duties and responsibilities entailed in carrying out their duties. The Board believes that these procedures have proved to be a practical and effective approach in light of the Corporation's particular circumstances, including the size of the Corporation, limited turnover of the directors and the experience and expertise of the members of the Board.

If the Board does not provide continuing education, describe how the Board ensures that its directors maintain the skill and knowledge necessary to meet their obligations as directors.**

Compensation of Directors

The Compensation and Nominating Committee conducts a yearly review of directors' compensation having regard to various reports on current trends in directors' compensation and compensation data for directors of reporting issuers of comparative size to the Corporation.

Compensation of Officers

The Chairman of the Compensation and Nominating Committee has ongoing communication with the Chief Executive Officer regarding compensation matters for the upcoming fiscal year. After such background communication, the two meet in person to discuss compensation matters, with the Chairman and the Chief Executive Officer striving to ensure that the executive compensation is consistent with the general principles as set forth under the heading "*Statement of Executive Compensation – Compensation Discussion and Analysis – Executive and Employee Compensation Principals and Strategy*". The Chairman and Chief Executive Officer go through the proposed executive compensation for each executive, including salary and participation levels in the bonus plans. The Chairman then meets with the other members of the Compensation and Nominating Committee and briefs them on the discussions held with the Chief Executive Officer. The full Compensation and Nominating Committee discusses the proposed executive compensation, in light of the strategic, operating and financial objectives of the Corporation as well as industry norms and conditions. If general or specific issues are raised, the Compensation and Nominating Committee will debate them. The full Compensation and Nominating Committee then meets with the Chief Executive Officer to discuss such matters and raise any questions or issues they may have regarding executive compensation. In light of the Corporation's size and small number of employees, these meetings allow the Compensation and Nominating Committee to get a sense of the practical issues involved in determining compensation levels for the executives. The Compensation and Nominating Committee then deals specifically with setting the compensation of the Chief Executive Officer. The Compensation and Nominating Committee then discusses and debates, as necessary, the specific executive compensation proposals. If further clarification is necessary, the Chairman will ask the Chief Executive Officer for information. Once the levels are agreed to by the members of the Compensation and Nominating Committee, they are formally approved.

Please also see discussion under the heading "*Statement of Executive Compensation – Compensation Discussion and Analysis – Executive and Employee Compensation Principals and Strategy*".

- (b) **Disclose whether or not the Board has a compensation committee composed entirely of independent directors. If the Board does not have a compensation committee composed entirely of independent directors, describe what steps the Board takes to ensure an objective process for determining such compensation.**

The Compensation and Nominating Committee is comprised entirely of independent directors.

- (c) **If the Board has a compensation committee, describe the responsibilities, powers and operation of the compensation committee.**
