Information Circular-Proxy Statement
for the Annual Meeting to be held on May 29, 2007

PROXIES

Solicitation of Proxies

This information circular proxy statement is furnished in connection with the solicitation of proxies for use at the annual meeting of the unitholders of Peyto Energy Trust to be held on Tuesday, May 29, 2007 in McLeod Hall A of the Telus Convention Centre located at 120 – 9th Avenue S.E., Calgary, Alberta, and at any adjournment thereof. Forms of proxy must be addressed to and reach Valiant Trust Company, Suite 310, 606 - 4th Street S.W., Calgary, Alberta, T2P 1T1, not less than 24 hours before the time for holding the meeting or any adjournment thereof. Only unitholders of record at the close of business on April 23, 2007 will be entitled to vote at the meeting, unless that unitholder has transferred any trust units subsequent to that date and the transferee unitholder, not later than 10 days before the meeting, establishes ownership of the trust units and demands that the transferee's name be included on the list of unitholders.

The instrument appointing a proxy must be in writing and must be executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation.

The persons named in the enclosed form of proxy are officers of Peyto Exploration & Development Corp. As a unitholder you have the right to appoint a person, who need not be a unitholder, to represent you at the meeting. To exercise this right you should insert the name of the desired representative in the blank space provided on the form of proxy and strike out the other names or submit another appropriate proxy.

Advice to Beneficial Holders of Trust Units

The information set forth in this section is of significant importance to you if you do not hold your trust units in your own name. Only proxies deposited by unitholders whose names appear on our records as the registered holders of trust units can be recognized and acted upon at the meeting. If trust units are listed in your account statement provided by your broker, then in almost all cases those trust units will not be registered in your name on our records. Such trust units will likely be registered under the name of your broker or an agent of that broker. In Canada, the vast majority of such trust units are registered under the name of CDS & Co., the registration name for The Canadian Depository for Securities Limited, which acts as nominees for many Canadian brokerage firms. Trust units held by your broker or their nominee can only be voted upon your instructions. Without specific instructions, your broker or their nominee is prohibited from voting your trust units.

Applicable regulatory policy requires your broker to seek voting instructions from you in advance of the meeting. Every broker has its own mailing procedures and provides its own return instructions, which you should carefully follow in order to ensure that your trust units are voted at the meeting. Often, the form of proxy supplied by your broker is identical to the form of proxy provided to registered unitholders. However, its purpose is limited to instructing the registered unitholder how to vote on your behalf. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("Broadridge"). Broadridge mails a scannable voting instruction form in lieu of the form of proxy. You are asked to complete and return the voting instruction form to them by mail or facsimile. Alternately, you can call their toll-free telephone number or visit their internet site to vote your trust units. They then tabulate the results of all instructions received and provide appropriate instructions respecting the voting of trust units to be represented at the meeting. If you receive a voting instruction form from Broadridge it cannot be used as a proxy to vote trust units directly at the meeting as the proxy must be returned to Broadridge well in advance of the meeting in order to have the trust units voted.

Revocability of Proxy

You may revoke your proxy at any time prior to a vote. If you or the person you give your proxy attends personally at the meeting you or such person may revoke the proxy and vote in person. In addition to revocation in any other

manner permitted by law, a proxy may be revoked by an instrument in writing executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation. To be effective the instrument in writing must be deposited either at our head office at any time up to and including the last business day before the day of the meeting, or any adjournment thereof, at which the proxy is to be used, or with the chairman of the meeting on the day of the meeting, or any adjournment thereof.

Persons Making the Solicitation

This solicitation is made on behalf of our management. We will bear the costs incurred in the preparation and mailing of the form of proxy, notice of annual meeting and this information circular-proxy statement. In addition to mailing forms of proxy, proxies may be solicited by personal interviews, or by other means of communication, by our directors, officers and employees who will not be remunerated therefore.

Exercise of Discretion by Proxy

The trust units represented by proxy in favour of management nominees will be voted on any poll at the meeting. Where you specify a choice with respect to any matter to be acted upon the trust units will be voted on any poll in accordance with the specification so made. If you do not provide instructions your trust units will be voted in favour of the matters to be acted upon as set out herein. The persons appointed under the form of proxy which we have furnished are conferred with discretionary authority with respect to amendments or variations of those matters specified in the form of proxy and notice of annual meeting and with respect to any other matters which may properly be brought before the meeting or any adjournment thereof. At the time of printing this information circular proxy statement, we know of no such amendment, variation or other matter.

VOTING UNITS AND PRINCIPAL HOLDERS THEREOF

We are authorized to issue an unlimited number of trust units without nominal or par value which may be issued for such consideration as may be determined by resolution of the Board of Directors. As at April 23, 2007, there were 105,712,364 trust units issued and outstanding. As a holder of trust units you are entitled to one vote for each trust unit you own.

To the knowledge of our directors and officers, as at April 23, 2007 no person or company beneficially owned, directly or indirectly, or exercised control or direction, over more than 10% of the trust units.

As at March 31, 2007, our directors and officers, as a group, beneficially owned, directly or indirectly, or exercised control over 19.6 million trust units or approximately 19% of the issued and outstanding trust units.

QUORUM FOR MEETING

A quorum for the meeting is two or more persons either present in person or represented by proxy and representing in the aggregate not less than 5% of our outstanding trust units. If a quorum is not present at the meeting within one-half hour after the time fixed for the holding of the meeting, the meeting will be adjourned to such day being not less than 21 days later and to such place and time as may be determined by the chairman of the meeting. At such meeting, the unitholders present either personally or by proxy shall form a quorum.

APPROVAL REQUIREMENT

All of the matters to be considered at the meeting are ordinary resolutions requiring approval by more than 50% of the votes cast in respect of the resolution by or on behalf of unitholders present in person or represented by proxy at the meeting.

DIRECTORS' AND OFFICERS' COMPENSATION

Compensation and Nominating Committee

The Compensation and Nominating Committee is comprised of Messrs. Mottershead, MacBean, Davis and Fletcher. None of these directors are executive officers or employees of Peyto Exploration & Development Corp. The Compensation and Nominating Committee meets from time to time each year for the purpose of, among other things, reviewing the overall compensation policy of Peyto Exploration & Development Corp. The Compensation and Nominating Committee makes recommendations to the Board of Directors on salaries of officers, bonus allocations and directors' compensation. The Board of Directors reviews all recommendations of the Compensation and Nominating Committee relating to compensation matters before final approval.

Report on Compensation

TO: The Unitholders of Peyto Energy Trust

Executive and Employee Compensation Strategy

Our compensation policies are founded on the principal that executive and employee compensation should be consistent with unitholders' interests and, therefore, the compensation strategy employed is weighted towards variable or performance based compensation. The objectives of the program are to attract and retain a high quality management and employee team and to motivate performance by tying a significant portion of the compensation to performance measures. The Compensation and Nominating Committee evaluates these objectives on an ongoing basis. We pay base salaries at or slightly below the median of our industry peers. We do not have a pension plan or other form of formal retirement compensation. Our compensation plan consists of the following items:

- base salary
- market based bonus
- reserves or value based bonus

The compensation of all our employees, including executive officers, is consistent with the above policies. A description of the criteria used in each element of compensation is set forth below.

Base Salaries

Our policy is that salaries for our executive officers and other employees are competitive within our industry and generally set at or slightly below the median salary level among entities our size.

Market Based Bonus

The purpose of the market based bonus (the "Market Component") is to provide officers, consultants, employees and other service providers, as applicable (all of which are hereinafter called "Service Providers"), of Peyto Energy Trust and any of its subsidiaries, including Peyto Exploration & Development Corp., with an opportunity to be issued allocations of the Market Component (referred to herein as "Rights"), as designated from time to time by the Board of Directors of Peyto Exploration & Development Corp., the value of which will be based primarily on the market value of the trust units and the distributions paid to unitholders. The Market Component provides an increased incentive for these Service Providers to contribute to the future success of Peyto Energy Trust, thus enhancing the value of the trust units for the benefit of all the unitholders. The Market Component is meant to mirror, to the extent possible, Peyto Exploration & Development Corp.'s previously outstanding option plan, with the exception that all payments are made in cash.

Rights shall be granted by the Board of Directors from time to time, at its sole discretion, to Service Providers. No Service Provider shall have any right to be granted Rights, except as may be specifically granted by the Board of Directors.

The grant price ("Grant Price") per Right in respect of Rights granted shall be generally equal to the weighted average of the per trust unit closing price of trust units traded through the facilities of the Toronto Stock Exchange on the five (5) consecutive trading days immediately preceding the date of grant. The Rights will have vesting

schedules as is determined by the Board of Directors, in their sole discretion. The Rights issued in 2003 and 2004 vest equally (as to $\frac{1}{3}$ per year) over three (3) years on December 31 of each year, while the Rights granted in 2005 and 2006 generally vest in three years. At the end of each year, the vested Rights will be paid-out based on the formula set forth in the following paragraph. At the beginning of each calendar year, the Board of Directors of Peyto Exploration & Development Corp. will use its discretion to determine whether to award new Rights, the number of Rights awarded, if any, the vesting schedule of such Rights and the allocations. Such new Rights will be granted effective January 1 and will be issued at a Grant Price equal to the Year End Market Price (as defined below). In certain circumstances, a new Service Provider may be granted Rights at the time they commence providing services, the Grant Price of such Rights shall be the market price of the trust units at such time. All Rights that have vested will expire at the end of the year regardless of whether they are in the money or not.

Upon the vesting of each Right, Peyto Energy Trust shall pay to the holder of such Right an amount equal to the sum of (i) the weighted average of the per trust unit closing price of trust units traded through the facilities of the Toronto Stock Exchange on the five (5) consecutive trading days immediately preceding the end of the calendar year ("Year End Market Price") less the Grant Price for such Right and (ii) the amount of the cash distributed by Peyto Energy Trust per trust unit from the Grant Date to the date of vesting. For greater certainty, the sum calculated in (i) above may be negative if the weighted average trading price is less than the Grant Price. For grants made prior to 2007, this amount is multiplied by 1.33. The 1.33 multiplier is being utilized to neutralize the difference in tax treatment from the exercise of a stock option and the cash payouts under the Market Component. The gain realized by a holder of stock options is taxed at the capital gains rate of 50%. The gain realized by a holder of Rights under the Market Component will be taxed at 100%. For grants subsequent to January 1, 2007, the 1.33 multiplier will not be utilized.

To date, 14.2 million Rights (inclusive of 1.6 million Rights granted in 2007) have been issued of which, 1.9 million vested on December 31, 2005 and 1.5 million vested on December 31, 2006 and were paid out shortly thereafter. To date, 2.6 million unvested Rights have been cancelled. Compensation expense with respect to Rights vested, for December 31, 2005 totalled \$45.0 million and for December 31, 2006 totalled \$8.5 million. Effective January 1, 2007, 1.6 million Rights were issued, with such Rights vesting in their entirety on December 31, 2009. It is the current intention of Peyto Energy Trust to keep the number of Rights outstanding at a number, which is no greater than 7% of the issued and outstanding trust units. There are currently 4.2 million Rights outstanding, notionally representing 4% of the issued and outstanding trust units.

Reserves/Value Based Bonus

The principal purpose of the Reserves/Value Based Component ("Value Component") is to advance the interests of Peyto Energy Trust and its subsidiaries by providing for bonuses for key employees and directors of Peyto Exploration & Development Corp. and its subsidiaries who are designated as participants thereunder. Currently, non-management directors do not participate in this plan. The goal in implementing the Value Component is to attract and retain such key employees and directors, make their compensation competitive with other opportunities, and provide them with an incentive to strive to achieve the financial and business objectives of Peyto Energy Trust and its subsidiaries. The overriding philosophy of the Value Component is to reward the designated employees for accretive value generation. The Value Component is designed to recognize individual performance that has played a role in creating incremental value per trust unit but not to reward for increases in commodity prices.

The Value Component will be administered by the Chief Executive Officer of Peyto Exploration & Development Corp., who will select the participants in the Value Component from among key employees of Peyto Exploration & Development Corp. and its subsidiaries and will allocate participation points to each such participant. Recommendations regarding the allocations made by the Chief Executive Officer will be reviewed by the Compensation and Nominating Committee of the Board of Directors. Allocations and payments made to the Chief Executive Officer will be determined by the Board of Directors of Peyto Exploration & Development Corp. Under the Value Component, the bonus pool is currently comprised of 3% of the annual incremental increase in value, if any, as adjusted to reflect changes in debt, equity and distributions, of Proven Producing Reserves calculated using a discount rate of 8%. The change in Proven Producing Reserves will be calculated on a calendar year basis. The Proven Producing Reserves shall be calculated by an independent oil and gas reservoir engineer, at the end of a fiscal year, using the following year's constant price forecast for all calculations. The bonuses, if any, under the Value Component shall be paid in cash. Compensation expense with respect to the Value Component totalled \$4.6 million in 2006 (2005 - \$12.8 million).

Chief Executive Officer Compensation

The compensation of the Chief Executive Officer of Peyto Exploration & Development Corp. is based on the same principles as our overall compensation strategy. Accordingly, a significant portion of the Chief Executive Officer's compensation is tied to performance measures. The base salary and bonus allocations made to the Chief Executive Officer reflect the role and responsibilities inherent in the position of Chief Executive Officer.

Given the unique nature of Peyto Exploration & Development Corp.'s business, the Compensation and Nominating Committee did not place significant emphasis on external compensation comparisons. However, comparison to other executives employed by Peyto Exploration & Development Corp. was considered by the Compensation and Nominating Committee. Given the nature of Peyto Exploration & Development Corp.'s business development and the roles adopted by the executive team, the Chief Executive Officer's overall compensation was, for the fiscal year end 2006, comparable to the compensation of the Chief Operating Officer and higher than other executives employed by Peyto Exploration & Development Corp. If either the nature of Peyto Exploration & Development Corp.'s operations or the role played by the Chief Executive Officer changes, the level of the Chief Executive Officer's compensation, relative to other executives, may also change.

The bonuses awarded by Peyto Exploration & Development Corp. reward executives for performance on several dimensions, namely, the increase in market price of Peyto Energy Trust's trust units, the amount of cash distributions paid on the trust units as well as growth in proven producing reserve value. The bonus granted under the market based bonus vests over a three year period. Over the last three financial years, Peyto Energy Trust grew on all these performance parameters and the Chief Executive Officer compensation reflects this growth. However, the quantum of the Chief Executive Officer's bonus has reflected the relative performance on these three dimensions.

For the year ended December 31, 2006, Mr. Gray was paid a salary of \$250,000, was paid \$645,981 pursuant to the vesting of Rights under the market based bonus and was paid \$0 pursuant to the reserves value based bonus. For the year ended December 31, 2006 Mr. Gee was paid a salary of \$185,000, was paid \$1,937,943 pursuant to the vesting of Rights under the market based bonus and was paid \$466,059 pursuant to the reserves value based bonus.

Summary

The Board of Directors believe that long-term unitholder value is enhanced by compensation based upon corporate performance achievements. Through the plans described above, a significant portion of the compensation for all employees, including executive officers, is based on corporate performance, as well as industry-competitive pay practices.

National Instrument 58-101, entitled "Disclosure of Corporate Governance Practices" ("NI 58-101") requires that if management of an issuer solicits proxies from its securityholders for the purpose of electing directors that certain prescribed disclosure respecting corporate governance matters be included in its management information circular. The Toronto Stock Exchange also requires listed companies to provide, on an annual basis, the corporate governance disclosure which is prescribed by NI 58-101.

The prescribed corporate governance disclosure for Peyto Exploration & Development Corp. (the "Corporation"), the administrator of Peyto Energy Trust, is that contained in Form 58-101F1 which is attached to NI 58-101 ("Form 58-101F1 Disclosure").

Compensation of Directors

Compensation of Officers

The Chairman of the Compensation and Nominating Committee has ongoing communication with the Chief Executive Officer regarding compensation matters for the upcoming fiscal year. After such background communication, the two meet in person to discuss compensation matters, with the Chairman and the Chief Executive Officer striving to ensure that the executive compensation is consistent with the general principles as set forth under the heading "*Board of Directors Report on Compensation*". The

Chairman and Chief Executive Officer go through the proposed executive compensation for each executive, including salary and participation levels in the bonus plans. The Chairman then meets with the other members of the Compensation and Nominating Committee and briefs them on the discussions held with the Chief Executive Officer. The full Compensation and Nominating Committee discusses the proposed executive compensation, in light of the strategic, operating and financial objectives of the Corporation as well as industry norms and conditions. If general or specific issues are raised, the Compensation and Nominating Committee will debate them. The full Compensation and Nominating Committee then meets with the Chief Executive Officer to discuss such matters and raise any questions or issues they may have regarding executive compensation. In light of the Corporation's size and small number of employees, these meetings allow the Compensation and Nominating Committee to get a sense of the practical issues involved in determining compensation levels for the executives. The Compensation and Nominating Committee then deals specifically with setting the compensation of the Chief Executive Officer. The Compensation and Nominating Committee then discusses and debates, as necessary, the specific executive compensation proposals. If further clarification is necessary, the Chairman will ask the Chief Executive Officer for information. Once the levels are agreed to by the members of the Compensation and Nominating Committee, they are formally approved.
